

What is claimed is:

1. A peptide represented by any of the following formula (1) to (5) or the salts thereof:
 - (1) Tyr-Val-Val-Phe-Lys;
 - 5 (2) Pro-Asn-Asn-Lys-Pro-Phe-Gln;
 - (3) Asn-Trp-Gly-Pro-Leu-Val;
 - (4) Ile-Pro-Pro-Gly-Val-Pro-Tyr-Trp-Thr;
 - (5) Thr-Pro-Arg-Val-Phe.
- 10 2. An angiotensin inhibitor comprising the peptides according to claim 1 or the salts thereof.
- 15 3. The angiotensin inhibitor characterized in that it is a hydrolysate of soybean proteins.
4. A method of producing the angiotensin inhibitor which comprises hydrolyzing a soybean protein with D3.
5. An antihypertensive comprising the peptide of claim 1 or the salts thereof.
- 20 6. A food comprising the peptides according to claim 1 or the salts thereof.
7. A method for producing the peptide according to claim 1 comprising hydrolyzing a soy protein using a protease.
- 25 8. A method for producing the peptide according to claim 1 comprising hydrolyzing a soybean protein with protease D3 derived from germinating soybean.
